

Study Programme: Architecture			
Course Unit Title: Introduction to Architectural Design			
Course Unit Code: A321			
Name of Lecturer(s): Konstantinović Dragana, Žugić Višnja			
Type and Level of Studies: bachelor			
Course Status (compulsory/elective): compulsory			
Semester (winter/ summer): summer			
Language of instruction: english			
Mode of course unit delivery (face-to-face/distance learning): face-to-face			
Number of ECTS Allocated: 4			
Prerequisites: none			
Course Aims: Understanding basics of design process; understanding of basic phases of design process and its practical application; developing ability for analytical and synthetic thinking; development of basic design skills; conceptualization of architectural work; program in architecture; production of architectural work (graphic and technological).			
Learning Outcomes: Students ability to understand and apply complex mechanism of design process; ability to architecturally express users needs; conceptualization and spatial expression of architectural idea; developed basis of critical thinking and work; basic knowledge about form and materialization of design work; basic knowledge about representation of design work.			
Syllabus. Understanding basics of design process; understanding of basic phases of design process and its practical application; developing ability for analytical and synthetic thinking; development of basic design skills; conceptualization of architectural work; program in architecture; production of architectural work (graphic and technological).			
Required Reading: Relevant literature in English, tbd			
Weekly Contact Hours:2	Lectures: 1	Practical work:	
Teaching Methods: Lectures; design exercise on selected design topics; discussion during lectures; consultation			
Knowledge Assessment (maximum of 100 points):			
Pre-exam obligations	points	Final exam	points
Attendance			
Computer exercises			
Tests (4x)
