

Study Programme: Philosophy			
Course Unit Title: Ontology 2			
Course Unit Code: 15ΦΙΦΙ027			
Name of Lecturer(s): Dragan Prole			
Type and Level of Studies: BA			
Course Status (compulsory/elective): compulsory			
Semester (winter/summer): summer			
Language of instruction: english			
Mode of course unit delivery (face-to-face/distance learning): face-to-face			
Number of ECTS Allocated: 5			
Prerequisites: -			
Course Aims:			
Introduction to metaphysics as a central philosophical standpoint inside the historical development of philosophy. Connection of ontological concepts and problems with the foundations of human knowledge, practice and creativity. Acquisition of knowledge about central ontological conceptions. Insight into the problems of philosophical positioning of ontology as a central philosophical discipline.			
Learning Outcomes:			
Acquisition of comprehensive knowledge about historical development of central philosophical concepts. Orientation with respect to the basic standpoints which have been brought into connection with the idea of first philosophy. Acquisition of prerequisites for particular application of central concepts of ontological tradition in the context of contemporary world.			
Syllabus:			
<i>Theory lessons</i>			
Kant's critical revision of ontology. Fichte's merging of ontology with practical philosophy. Schelling's conception of ontology and philosophy of nature. Hegel's grounding of ontology as science of logic. Post-Hegelian impugment of ontology. Nietzsche's ontology. Phenomenological ontology. Fundamental ontology. Contemporary revision of ontology. Ethics as first philosophy. Possibility of contemporary transformation of ontology.			
<i>Practical lessons:</i>			
Work on the production of written paper. Practical application of philosophical insights from the field of fundamental ontological vocabulary in its debate with recent philosophical problems
